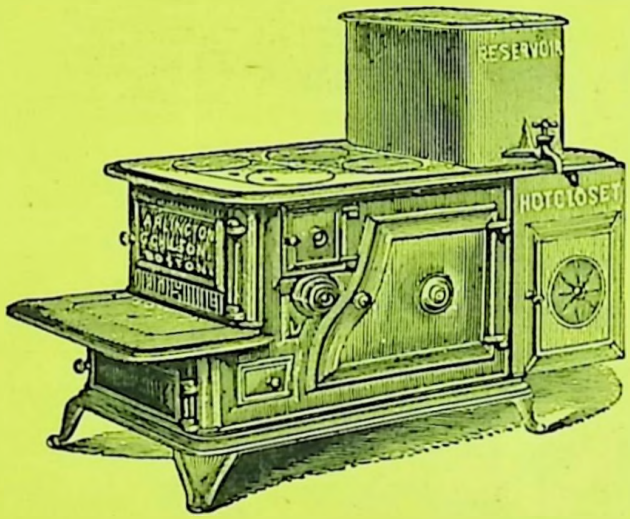
THE

ARLINGTON COOKING STOVE.

CHILSON'S NEW STOVE.—JUST COMPLETED.



Five minutes' examination of this Stove will prove it to be the CHEAPEST, NEATEST, MOST CONVENIENT and DURABLE, and in EVERY RESPECT the BEST COOKING STOVE ever made. WITHOUT EXCEPTION, the WATER FRONT FIXTURES for heating water, for BATH BOILERS, &c., are the MOST PERFECT EVER INVENTED. DO NOT FAIL to examine this Stove before purchasing elsewhere.

A VARIETY OF SIZES, WITH or WITHOUT Extension Tops, Reservoirs, Hot Closets, &c., &c., for HARD or SOFT COAL, or WOOD, kept constantly on hand.

CHILSON'S PATENT

Elevated, Double-Oven COOKING RANGE

HAS BEEN REMODELLED AND GREATLY IMPROVED.

This Celebrated Range is universally acknowledged to be the most complete and perfect Kitchen Range in America.

No housekeeper, who would enjoy the comforts of a really perfect Kitchen Range, should fail to examine this before purchasing. Sizes adapted for dwellings, hotels, &c. with or without water-backs, hot closets, and hot-air fixtures for heating additional rooms.

It excels all others—

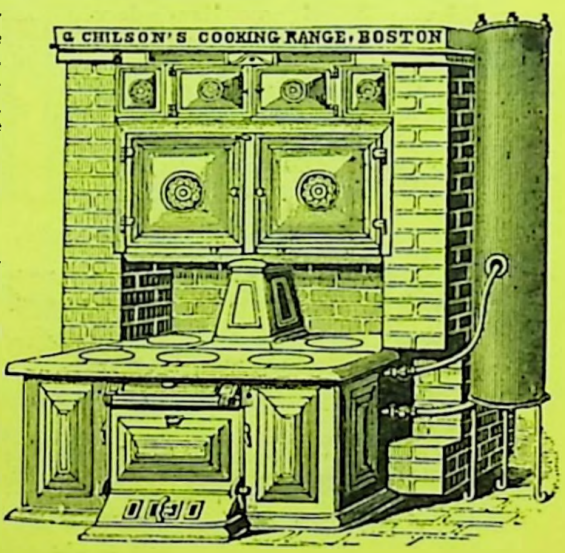
1st—In its entirely new principle for circulating the heat around either oven separately, or both ovens, as desired.

2d—In its heavy fine castings and thorough workmanship.

3d—In its GREAT ECONOMY OF FUEL.

4th—In its quick and even baking ovens.

5th—In its self-regulating flues, without the usual complication of dampers; and finally, in its general beauty of design, durability, &c.



ALSO,

Parlor, Office, and Store Stoves, Patent Dampers, Registers, Ventilators, &c.

Warerooms: 99 and 101 Blackstone Street, Boston.

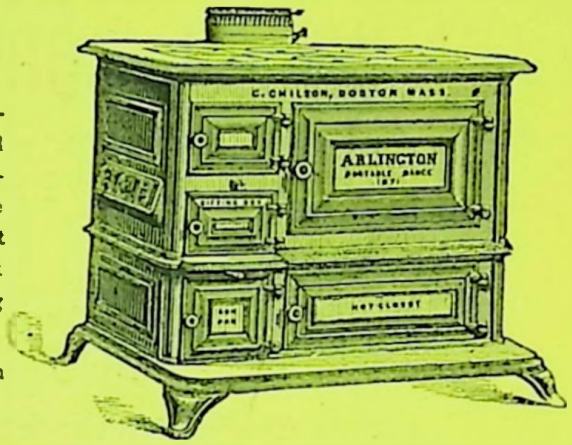
GARDNER CHILSON.

THE ARLINGTON PORTABLE RANGE.

CHILSON'S NEW RANGE, 1872.

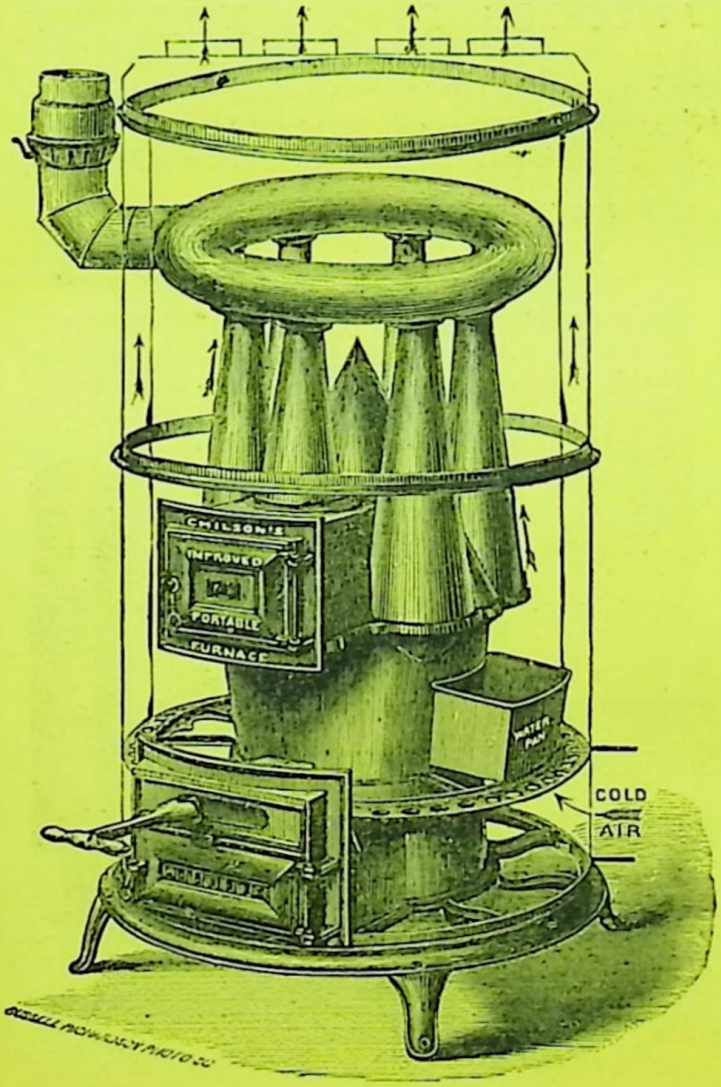
The first sight of this new and splendid Portable Range will convince all that its equal has never been seen, — in its Beautiful Design, Superior Fine Heavy Castings, with and without Hot Closets, and Reservoirs; also, Hot Water Fronts for Bath Boilers, Sifting Grates, Ash Pans, etc.

Housekeepers will be pleased with this PORTABLE RANGE.



CHILSON'S CELEBRATED AND UNRIVALLED BRICK AND PORTABLE FURNACES,

Ten Sizes.



Patented in the United States, England and France.

The high reputation this furnace has acquired, in the use of more than twenty thousand, places it pre-eminently ahead of any other known plan for thoroughly and economically warming buildings. The cuts of the brick or portable furnaces will show at a glance to any intelligent mind the wonderful heating powers, a cluster of tapering Radiators standing directly over the fire, must have over any other form of heating surface, and which is so constructed as to be perfectly gas and smoke tight. Any one in want of a furnace should not fail of thoroughly examining this furnace.

Special attention given to putting up furnaces and Ranges, and the ventilation of buildings in every part of the country.

☞ Nothing but strictly first-class work is manufactured by me.

Parlor, Office, and Store Stoves, Patent Dampers, Registers, Ventilators, etc.

PREFACE.

We herewith present the Second Number of the Biddeford and Saco Directory to the public, for their use and approval.

While obtaining the necessary information for this work, our agents, as a general thing, have been very politely and gentlemanly treated by the *business men.* We have to except from this class, however, the local managers of the Laconia and Pepperell Companies in Biddeford, and the York Company of Saco.

Here they were not only refused encouragement in any way from these *wealthy corporations*, but were not even allowed to go through the mills to take the names of the male employees, being classed among general book canvassers, who had no business there occupying the time of any one connected with the Company.

We would say, in closing, that a Directory of any city cannot be published satisfactorily to all parties concerned, without some *substantial aid* (instead of opposition), from the principal Manufacturing Companies and Business Men.

Thanking all those who have aided us, either by their patronage or otherwise, and hoping that we may merit a continuance of the same in our future compilations of this work, we remain

Yours, very respectfully,

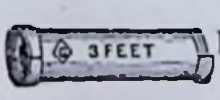
Manufacturers of every description of

STONE WARE GOODS

DOUBLE GLAZED VITRIFIED

Stone Drain and Water Pipe.

FACTORY,



North End of Deering's Bridge.

J. N. Winslow, Treas., J. T. Winslow, Supt.

We desire to call the attention of the public, cities, and corporations to the following report. The figures given is the average pressure upon each square inch of the pipe:

OFFICE OF SUPERINTENDENT OF SEWERS, CITY HALL, Boston, Sept. 1, 1869.

TEST OF PORTLAND DRAIN PIPE.

12 inch, 78 lbs. per sq. inch. 8 inch, 163 lbs. per sq. inch. 4 inch, 225 lbs. per sq. inch.
10 inch, 120 lbs. per sq. inch. 6 inch, 130 lbs. per sq. inch.

Signed, W. H. BRADLEY.

It will be seen by the foregoing report that our Drain Pipe resists a pressure per square inch far greater than any other pipe manufactured, and it is also alike impervious to acids or other chemical agencies, and unaffected by the elements.

Glazed Stone Ware Pipes are used almost exclusively for sewerage purposes by all the large cities in this and foreign countries.

Our Pipes are of extra thickness. Equal to the best English imported. Warranted indestructible. Made from pure Fire Clay, and Glass coated.

MANUFACTURE, UNDER NEW PATENTS,

HYDRAULIC CEMENT

Drain AND Sewer Pipe,

For Well Sides it keeps out all surface water. For Sewers it keeps free from deposits, and never decays. For Culverts it is cheap and durable. For Chimneys it takes less space and costs less than brick. For Drains it has a moist surface, and grease does not adhere as it does to dry surfaces, and acids of Sewers do not affect it, but it grows harder with age, as is proved by over thirty-five years of use. Also,

Best Artificial Stone Pipe, Pavement, and Building Block Machines.

The Common is a tract of land of a number of acres, situated on the easterly side of the village, and was granted to the town in 1752, by Sir William Pepperell. The donation of a part consisted of four acres, "for building a meeting-house, for a burying-place, and for setting up a school-house, and for no other use or end whatever." A still larger grant was made of land adjoining, by the same grantor, "for a training field," etc. The Unitarian Church, now occupied by Rev. J. T. G. Nichols' society, is situated on this grant.
